

Sources & Status

Where game facts in this book come from, and where to click first when you want the raw detail. The book itself carries only planning and personal data; game-data claims link out to these sources instead of duplicating them.

Status

Data build	1.60.1.70124
Last verified	2026-10-01
Beta window	Sep 17 - Oct 21 2026
Launch	Nov 4 2026, 3:00 p.m. PST (6 p.m. EST)

Beta numbers move build to build. Anything numeric in this book is provisional until launch. Facts are labeled: **confirmed** (Blizzard), **datamined** (client), **Classic-derived** (fallback assumption).

Trusted sources, by topic

Click the site that owns the topic:

Topic	Source	Why
Talents, class changes	wowforeverguides.com	173 pages / 479 cited sources, dated beta-change notes, client build tagged, editorial policy
Races, racials, systems	wowforeverwiki.org	Evidence-ranked: Blizzard-confirmed baseline, everything else labeled with verification level
Professions (raw data)	Forever Codex	Client DB2 pipeline, hourly rebuild, highest fidelity (beats both wikis)
Talent calculator	wowforeverguides / classicwow.gg	Interactive planners
Zones, dungeons, raids	wowforeverwiki.org / wowforeverguides	Confirmed + datamined split

Topic	Source	Why
Official announcements	Blizzard news	Primary source, always wins a conflict
Client DB2 raw tables	wago.tools	De facto API for spell/item data

Caveats

- wowforeverwiki.org is a solo project: good methodology, unknown longevity.
wowforeverguides.com updates faster during beta.
- world-of-warcraft-forever.wiki is blacklisted: AI-generated filler with fabricated stats. Do not use.
- The agent keeps this list current in the gameplan repo (`RESOURCES.md`), which is the deeper reference if a link here rots.
